Illustration

Work

Research Assistant

Sept 2017 - Present

CMU Human Computer Interaction Institute

Designing a visualization tool for machine learning model built for predicting human routine behaviors. Working closely with data scientists and developers. Conducting analytical research on existing machine learning model and the end users.

UX/UI Design Intern

Oct 2017 - Present

ComYoot

Creating promotional materials (print, t-shirt designs & graphics). Designing web reporting dashboard and web UX/UI through wireframes and design prototypes. Collaborating with professionals in learning the startup scene.

UX/UI Designer | Research Assistant

May 2017 - Aug 2017

CMU Human Computer Interaction Institute

Worked on re-designing the AWARE dashboard, a tool for user compliance checking, with Prof. Anind Dey.

User Interface Designer

May 2017 - Jul 2017

CMU Ubicomp Lab

Redesigned the official website for CMU Ubicomp Lab. Worked on the interface to better convey the group's research and to help viewers navigate information more efficiently.

Project

Product Designer

Aug 2017 - Present

Insignia

Designing visual interface for Insignia, an online platform for job applications. Working closely with the engineers for implementation. This is a personal passion project initiated with two other software engineering students.

Design Committee

Sept 2016 - Present

CMU Japanese Student Association

Organizing large events for Japanese Student Association. Designing logos, posters, and banners.
